MICROSOFT 365 COPILOT COWORK · **START HERE** · FREE, MIT LICENCE

Give Copilot a job it can do without you

23 ready-made bots for Microsoft 365 Copilot Cowork. Each one is a single file you upload once. After that you ask in plain English and it does the work, inside your own mailbox and files, under your own permissions.

What is Cowork?

The part of Microsoft 365 Copilot that **does the work**, not just the chatting. Chat answers a question in seconds. Cowork reads across your mail, files and meetings and comes back with the finished thing.

What a skill is

One file that teaches Cowork a job you keep repeating, so you stop explaining it every time. It sits in your own OneDrive. Nobody else sees it unless you share it.

Why these are safe to try

Every bot here reads and prepares, then stops. Sending, posting and deleting wait for a button you press. You can choose to pre-approve things later. No bot here decides that for you.

1. Pick a bot and **download its file**
2. In Cowork, open **Customize**
3. Go to the **Skills** tab
4. **Add → Upload skill**, pick the file
5. Start a **new** chat and ask it for the job

What is in the box

Core / Executive 1 bot	**Team Lead** 3 bots	**Finance & FinOps** 5 bots	**People & HR** 3 bots
IT & Ops 3 bots	**Projects** 3 bots	**Comms** 4 bots	**Sales & BD** 1 bot

THE RULE THEY FOLLOW

Silence is a result. A bot that invents a finding to look busy teaches you to stop reading it.

YOU NEED
Microsoft 365 Copilot with Cowork switched on by your admin. It is off by default.

NOT ON MOBILE
Uploaded skills only work on a laptop or desktop.

IT IS METERED
Cowork bills on usage. Your admin can cap what you spend.

ROOM FOR ALL OF THEM
You can hold 50 skills. These 23 use under half.
