Invoice & Vendor Follow-up

Finds the invoice threads that stopped, with age and amount, and drafts the nudge.

What is Cowork?

The part of Microsoft 365 Copilot that **does the work**, not just the chatting. It reads your mail, files and meetings, then prepares the result. By default it asks you before it sends anything.

What a skill is

One file you upload once. It teaches Cowork a job you keep repeating, so you stop explaining it every time. It lives in your own OneDrive.

What this one gives you

Finds invoice and payment threads in the mailbox that have gone unanswered, ages them, and drafts the follow-up to each counterparty.

1. Download the file for this skill
2. In Cowork, open **Customize**
3. Go to the **Skills** tab
4. **Add** → **Upload skill**, pick the file
5. Start a **new** chat and say the words below

Then just say one of these

- *"Which invoices have gone quiet?"*
- *"Who has not replied about payment?"*
- *"Draft the chasers for unpaid invoices"*

What you get back

- Every stalled thread, with its age and amount
- Who you are waiting on, and who is waiting on you
- A drafted nudge for each one, unsent

What it will never do without asking you

- Draft, never send. Especially never send a chase to a counterparty on the config exclusion list…
- Never state an amount as owed. The ledger is the source of truth.
- Never escalate a ladder step on your own. The user chooses the step.

THE RULE IT FOLLOWS

Nothing outstanding is a good week.

YOU NEED

Microsoft 365 Copilot with Cowork switched on by your admin. It is off by default.

NOT ON MOBILE

Uploaded skills only work on a laptop or desktop.

IT IS METERED

Cowork bills on usage. Your admin can cap what you spend.

MAKE IT YOURS
