One-to-One Prep

Walks into the 1:1 knowing what you owe them, which is the half most prep skips.

What is Cowork?

The part of Microsoft 365 Copilot that **does the work**, not just the chatting. It reads your mail, files and meetings, then prepares the result. By default it asks you before it sends anything.

What a skill is

One file you upload once. It teaches Cowork a job you keep repeating, so you stop explaining it every time. It lives in your own OneDrive.

What this one gives you

Prepares a brief for a one-to-one with a named person: their open items, what they raised recently, what you owe them, and what has gone unanswered between you.

1. Download the file for this skill
2. In Cowork, open **Customize**
3. Go to the **Skills** tab
4. **Add → Upload skill**, pick the file
5. Start a **new** chat and say the words below

Then just say one of these

- *"Prep my 1:1 with Sam"*
- *"What do I owe them?"*
- *"What did they raise last time?"*

What you get back

- What they raised, quoted and linked
- What you owe them, and what is still unanswered
- Items carried over from last time, marked and counted

What it will never do without asking you

- Never assess, rate, or characterise the person. No performance language, no sentiment read, no "seems disengaged".
- Never read 1:1 notes about this person written by someone else.
- Never draft feedback, and never prepare anything for a performance process.

THE RULE IT FOLLOWS

An empty brief is a good sign.

YOU NEED

Microsoft 365 Copilot with Cowork switched on by your admin. It is off by default.

NOT ON MOBILE

Uploaded skills only work on a laptop or desktop.

IT IS METERED

Cowork bills on usage. Your admin can cap what you spend.

MAKE IT YOURS
