Subscription Hunter

Surfaces every recurring charge in the mailbox before it renews itself, with a drafted reply ready.

What is Cowork?

The part of Microsoft 365 Copilot that **does the work**, not just the chatting. It reads your mail, files and meetings, then prepares the result. By default it asks you before it sends anything.

What a skill is

One file you upload once. It teaches Cowork a job you keep repeating, so you stop explaining it every time. It lives in your own OneDrive.

What this one gives you

Finds every recurring subscription, licence and service renewal hiding in the user's mailbox and files, and builds a dated renewal calendar with a drafted cancellation or renegotiation reply for each one.

1. Download the file for this skill
2. In Cowork, open **Customize**
3. Go to the **Skills** tab
4. **Add** → **Upload skill**, pick the file
5. Start a **new** chat and say the words below

Then just say one of these

- *"What are we subscribed to?"*
- *"What renews in the next 30 days?"*
- *"Find the subscriptions we forgot"*

What you get back

- An Excel sheet of every renewal, each row linked to its source
- What renews in the next 30 days, and what looks like waste
- A drafted cancellation or renegotiation, unsent

What it will never do without asking you

- Draft, never send. Cancellation and renegotiation replies are saved as drafts for the user to read, edit and send.
- Never cancel, downgrade or modify anything in a vendor portal, and never follow a cancellation link.
- Never state an amount as the authoritative figure. Finance systems and the contract are the source of truth; this reads what arrived in the mailbox.

THE RULE IT FOLLOWS — Finding nothing is a success.

YOU NEED
Microsoft 365 Copilot with Cowork switched on by your admin. It is off by default.

NOT ON MOBILE
Uploaded skills only work on a laptop or desktop.

IT IS METERED
Cowork bills on usage. Your admin can cap what you spend.

MAKE IT YOURS
Open *references/config.md* to set the names and thresholds.
