One-to-One Prep

Walks into the 1:1 knowing what you owe them, which is the half most prep skips.

Do this, about two minutes

1. **Download the skill file**
   one-to-one-prep.zip
   github.com/kesslernity/awesome-copilot-cowork-bots ↓
2. In Cowork, open **Customize** in the side panel
3. Go to the **Skills** tab
4. Select the arrow next to **Add**, then **Upload skill**, and choose the file
5. Start a **new** chat and say one of these

   “Prep my 1:1 with Sam”

   “What do I owe them?”

   “What did they raise last time?”

Nothing is sent, posted or deleted unless you press a button. **Changed your mind?** Remove the skill from the same **Skills** tab.

And you get back

- What they raised, quoted and linked
- What you owe them, and what is still unanswered
- Items carried over from last time, marked and counted

What it will never do without asking you

- Never assess, rate, or characterise the person. No performance language, no sentiment read, no “seems disengaged”.
- Never read 1:1 notes about this person written by someone else.
- Never draft feedback, and never prepare anything for a performance process.

THE RULE IT FOLLOWS

An empty brief is a good sign.

Runs when you ask for it. Want it on a timer? Say *“do this every Monday at 9”* and Cowork schedules it. You get 25 schedules, so spend them on the jobs you would otherwise forget.

NEW TO COWORK?
It is the part of Copilot that *does the work*, not just the chatting. A skill is one file that teaches it a job you repeat.

YOU NEED
Microsoft 365 Copilot with Cowork switched on by your admin. It is off by default, and not on mobile.

IT IS METERED
Cowork bills on usage. Your admin can cap what you spend.

MAKE IT YOURS
Open *references/config.md* inside the file to set the names and thresholds.
