Invoice & Vendor Follow-up

Finds the invoice threads that stopped, with age and amount, and drafts the nudge.

Do this, about two minutes

1. **Download the skill file invoice-vendor-followup.zip**
   github.com/kesslernity/awesome-copilot-cowork-bots ↓
2. In Cowork, open **Customize** in the side panel
3. Go to the **Skills** tab
4. Select the arrow next to **Add**, then **Upload skill**, and choose the file
5. Start a **new** chat and say one of these

   "Which invoices have gone quiet?"

   "Who has not replied about payment?"

   "Draft the chasers for unpaid invoices"

Nothing is sent, posted or deleted unless you press a button. **Changed your mind?** Remove the skill from the same **Skills** tab.

And you get back

- Every stalled thread, with its age and amount
- Who you are waiting on, and who is waiting on you
- A drafted nudge for each one, unsent

What it will never do without asking you

- Draft, never send. Especially never send a chase to a counterparty on the config exclusion list…
- Never state an amount as owed. The ledger is the source of truth.
- Never escalate a ladder step on your own. The user chooses the step.

THE RULE IT FOLLOWS

Nothing outstanding is a good week.

Runs when you ask for it. Want it on a timer? Say *"do this every Monday at 9"* and Cowork schedules it. You get 25 schedules, so spend them on the jobs you would otherwise forget.

NEW TO COWORK?
It is the part of Copilot that *does the work*, not just the chatting. A skill is one file that teaches it a job you repeat.

YOU NEED
Microsoft 365 Copilot with Cowork switched on by your admin. It is off by default, and not on mobile.

IT IS METERED
Cowork bills on usage. Your admin can cap what you spend.

MAKE IT YOURS
Open *references/config.md* inside the file to set the names and thresholds.
